

PRIORITIZATION SCORING MATRIX

This matrix supports II.A.2.3, allowing you to prioritise funding sources based on eligibility, timing, co-funding, administrative load, and success probability. Scores: 1 (low) – 9 (high).

Funding Source	Eligibility Fit (1–9)	Timing Alignment (1–9)	Co-funding Rate (%)	Administrative Load (1–9, reverse score)	External Funding Needed (€)	Probability of Success (1–9)	Total Score (auto-sum)	Notes
<i>Explain the source of funding</i>	Strong alignment with PCP/PPI/IP rules	Funding available exactly when needed	High contribution (≥ 50–90%)	Low bureaucracy (score high)	What must be co-funded through additional sources	Strong project-programme fit	Based on the Sum of all scores	
Horizon Europe PCP								
Horizon Europe PPI								
National Innovation Agency								

This Project has received funding from the European Union’s Horizon Europe Framework Programme under grant agreement No10115822.
